

EEGS Corporate Membership Packages

EEGS is offering expanded benefits and opportunities for Corporate Members to increase visibility and reach a targeted, near surface geophysical community. When EEGS unveiled its new website, members and visitors were offered additional experiences and numerous web site features designed to increase traffic and lengthen engagement times.

Challenge: Offer Corporate Members increased visibility for products and services by growing EEGS' member base.

EEGS will build membership and SAGEEP attendance by appealing to those who share a focus on near surface geophysics from a broad range of disciplines. Members will be offered multiple avenues to communicate and share near surface technology, techniques and expertise to capitalize on what makes EEGS unique and to amplify its value as an open source of knowledge. A larger, engaged EEGS membership means a larger targeted market for our Corporate Members.

Challenge: Offer Corporate Members greater visibility and reward support by adding value in exchange for continued support of the only membership organization focusing specifically on those in the near surface community.

Challenge: Extend to Corporate Members the benefit of EEGS' rededication to building a strong organization uniquely positioned to target and serve all who engage in near surface geophysics across the disciplines.

Solution: The EEGS website features numerous opportunities for members to engage and communicate directly with others based on professional focus.

- Community Forums (post topics for online discussion, pose questions)
- E-lists (email communication - think listserv)
- Online Social Community (members connect with colleagues: email, post pictures/files, join circles for special interest discussion groups, share current projects and challenges)
- EEGS is adding Google Analytics to aid website advertisers in matching their goals to Corporate Membership Advertising Package choices.

Solution: In addition to the current benefits of membership based on Corporate Member type, additional visibility is offered:

- Linked Corporate logos were added to the Corporate Members page of the website
- Corporate profiles or descriptions appear on the Corporate Members page of the website
- Ability to supplement visibility by participating in the Corporate Membership Website Advertising Package

Solution: EEGS is offering a Corporate Membership Website Advertising Package to supplement the existing benefits of Corporate Membership:

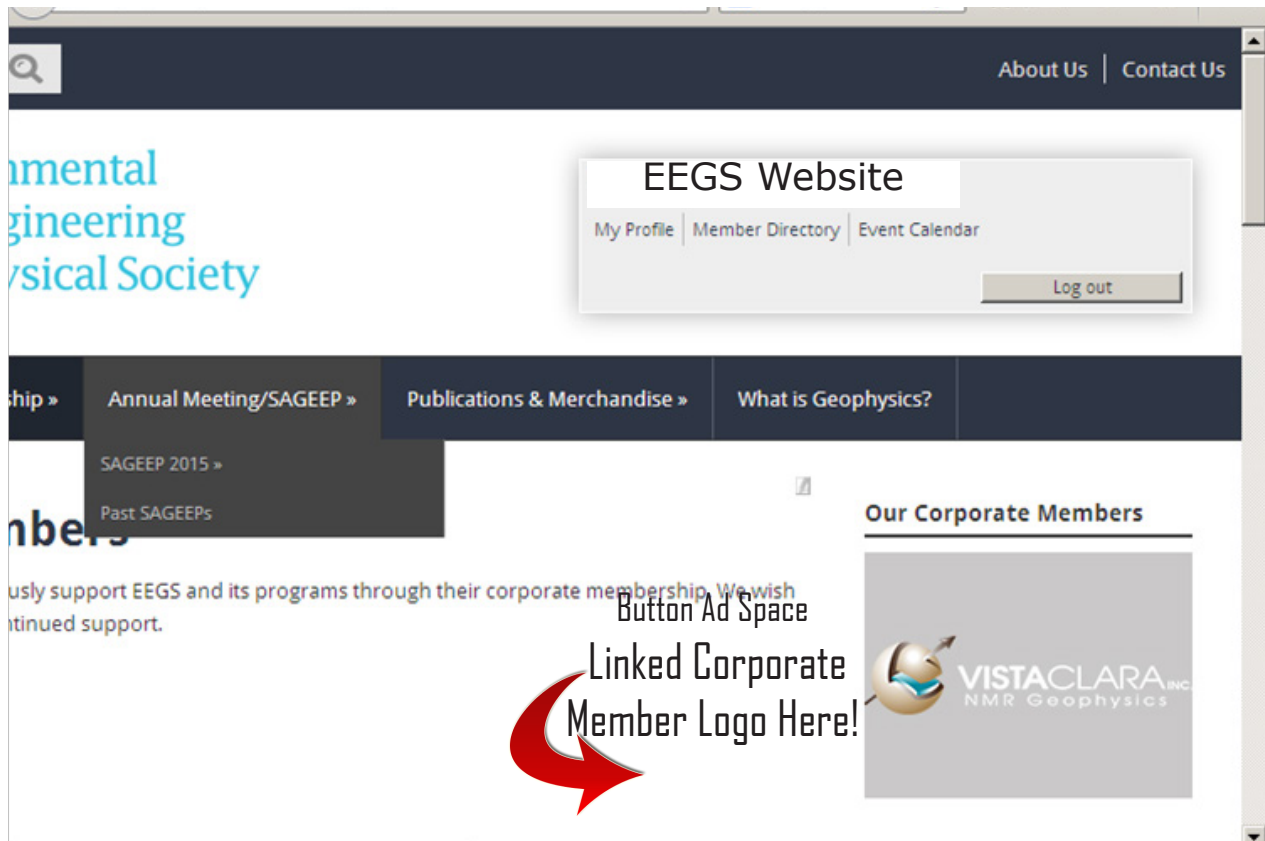

- Company logo, tag line and link to company website in a PopUnder-sized advertisement to appear on every page of the website
- Company logo, link to company website in a button sized, right rail placement appearing on every page of the website.

EEGS is the premier membership organization for near surface geophysics applied to engineering and environmental problems. Our multi-disciplinary blend of professionals from the private sector, academia, and government offers a unique opportunity to network with researchers, practitioners, and users of near-surface geophysical methods.

Annual (calendar year) memberships include access to the *Journal of Environmental & Engineering Geophysics (JEEG)*, proceedings archives of the Symposium on the Application of Geophysics to Engineering and Environmental Problems (SAGEEP), and our electronic newsletter *FastTIMES*. Members also enjoy complimentary access to SEG's technical program expanded abstracts, discounted SAGEEP registration fees, books and other educational publications. EEGS offers a variety of membership categories tailored to fit your needs. We've added value to all the Corporate Membership categories and added two new Website Advertising opportunities. We've packaged the two for an even greater value! Please select (circle) your membership category and rate below:

FOUNDATION CONTRIBUTIONS

FOUNDERS FUND

The Founders Fund has been established to support costs associated with the establishment and maintenance of the EEGS Foundation as we solicit support from larger sponsors. These will support business office expenses, necessary travel, and similar expenses. It is expected that the operating capital for the foundation will eventually be derived from outside sources, but the Founder’s Fund will provide an operation budget to “jump start” the work. Donations of \$50.00 or more are greatly appreciated. For additional information about the EEGS Foundation (an IRS status 501(c)(3) tax exempt public charity), visit the website at <http://www.EEGSFoundation.org>.

Foundation Fund Total: \$ _____

STUDENT SUPPORT ENDOWMENT

This Endowed Fund will be used to support travel and reduced membership fees so that we can attract greater involvement from our student members. Student members are the lifeblood of our society, and our support can lead to a lifetime of involvement and leadership in the near-surface geophysics community. Donations of \$50.00 or more are greatly appreciated. For additional information about the EEGS Foundation (a tax exempt public charity), visit the website at <http://www.EEGSFoundation.org>.

Student Support Endowment Total: \$ _____

CORPORATE CONTRIBUTIONS

The EEGS Foundation is designed to solicit support from individuals and corporate entities that are not currently corporate members (as listed above). We recognize that most of our corporate members are small businesses with limited resources, and that their contributions to professional societies are distributed among several organizations. The Corporate Founder’s Fund has been developed to allow our corporate members to support the establishment of the Foundation as we solicit support from new contributors.
