

## FUNDING AVAILABLE FOR ENVIRONMENTAL RESEARCH AND DEVELOPMENT

ALEXANDRIA, VA, October 28, 2021—The Department of Defense's (DoD) **Strategic Environmental Research and Development Program (SERDP)** is seeking to fund environmental research and development in the **Environmental Restoration** program area. SERDP invests across the broad spectrum of basic and applied research, as well as advanced technology development. The development and application of innovative environmental technologies will reduce the costs, environmental risks, and time required to resolve environmental problems while, at the same time, enhancing and sustaining military readiness.

The Environmental Restoration program area focuses on remediating and managing contaminated lands on current and former military installations. It supports the development of innovative technologies to characterize, remediate, and scientifically manage contaminants in soil, sediments, and ground, surface and wastewater. SERDP is requesting proposals that respond to the following focused Statements of Need (SONs) in **Environmental Restoration**:

- **Transformation of Polyfluoroalkyl Substances Found in Soil and Groundwater at AFFF-Impacted Sites**
- **Improved Management of Stormwater Impacts at Department of Defense Facilities**
- **Improved Understanding of Concrete and Asphalt Impacted by Historical Releases of AFFF**
- **Attenuation Mechanisms and Degradation Kinetics of Minor Components of Common Groundwater Contaminant Mixtures**

Proposals responding to the Fiscal Year (FY) 2023 SON will be selected through a competitive process. **All pre-proposals are due to SERDP January 6, 2022 by 2:00 p.m. ET.** The SONs and detailed instructions are available on the [SERDP website](#).

### Learn More About Funding Available Through SERDP

**Participate in the webinar “*SERDP Funding Opportunities*”** conducted by SERDP Executive Director Dr. Herb Nelson, Deputy Director Dr. Andrea Leeson, and the SERDP Program Managers on **November 10, 2021**, from **1:00 – 2:30 p.m. ET**. This briefing will offer valuable information for those who are interested in new funding opportunities with SERDP. During the online seminar, participants may ask questions about the funding process, the current SERDP solicitation, and the proposal submission process. [Pre-registration](#) for this webinar is required. If you have difficulty registering, please contact the SERDP Support Office at [serdp-estcp.webinars@noblis.org](mailto:serdp-estcp.webinars@noblis.org) or by telephone at 571-372-6565.
